

share the moment with cards & calendars

MAKE YOUR OWN CARD AND CALENDAR in 6 easy steps

You already did the hard part when you captured all those great photos. Now you're just a few easy steps away from creating an impressive calendar or greeting card from your images.

1. using mac or pc
You can create Greeting Cards and Calendars using Apple iPhoto or Adobe Photoshop Album software.
2. pick a theme
From within the card and calendar software to suit your requirements.
3. choose your card style
From either 5x7 folded greeting cards complete with matching envelopes or 4x6 postcards. Both feature horizontal and vertical designs, and postcard designs come with either a message or a mailer back.
4. check and save
Check your final file then save it as a PDF.
5. send the pdf
Burn the pdf to a CD and deliver it to our Malvern studio either by post or in person. iPhoto users have the option of downloading our free plug in which will allow you to order and pay for your book from within the iPhoto program.
6. receive your fabulous Cards or calendars
Have your book posted anywhere in the world or pick it up from our studio.
